

Insulating mat class 2 0,6x10m

Internal Reference: SOFAD2-06100

Rubber base: SBR natural rubber
 Specific weight: 1.51 g / cm³ (specific gravitad)
 Hardness: 71 Shore A
 Tensile strength: 75.5 kg / cm²
 Elongation at break: 362
 Tear strength: 20 kg / cm²
 Abrasion resistance: 182 mm³
 Temperature range: -40°C / +70°C

Chemical resistance:
 Diluted acids and bases - Moderate
 Concentrated acids and bases - Not recommended
 Hydrocarbons - Not recommended
 Organic solvents - Not recommended

Complies with IEC 61111 standard

We can customize mat lengths according to customer requirements (maximum 10 m).

Characteristics

Dimension	0,6 x 10 m mm	Weight	22,8 g
Working voltage	17000	Thickness	2,6 mm
Classe	2
