

Insulating mat class 4 1,2x1,0m

Internal Reference: SOFAD4-1210

Rubber base: SBR natural rubber
 Specific weight: 1.51 g / cm³ (specific gravitad)
 Hardness: 71 Shore A
 Tensile strength: 75.5 kg / cm²
 Elongation at break: 362
 Tear strength: 20 kg / cm²
 Abrasion resistance: 182 mm³
 Temperature range: -40°C / +70°C

Chemical resistance:
 Diluted acids and bases - Moderate
 Concentrated acids and bases - Not recommended
 Hydrocarbons - Not recommended
 Organic solvents - Not recommended

Complies with IEC 61111 standard

We can customize mat lengths according to customer requirements (maximum 10 m).

Characteristics

| | | | |
|-----------------|--------------|-----------|--------|
| Dimension | 1,2 x 1 m mm | Weight | 9,4 g |
| Working voltage | 36000 | Thickness | 5,2 mm |
| Classe | 4 | | |
