

Staircase time switch Teco 230VAC 16A 1NO

Internal Reference: TLE

timer function:

After pressing the push-button, the relay contact closes and the selected time begins to count down. If the push-button is pressed again before the end of the time, the time starts running again (as per EN 60669-2-3). Multiple rapid push-button presses (pumps) add up to 2, 3 or more time intervals up to a maximum of 60 min. A long press (> 2 s) interrupts the time and the relay switches off (energy-saving function).

shutdown warning (short interruptions 15, 10 and 5 sec before the end of the timer)

adjustable time: 0.5, 5, 10 or 15 minutes

2 LED indicators (power and output)

functions:

- automatic
- off
- permanent light
- remote switch

can be used with illuminated pushbuttons

35mm rail mounting (EN60715)

Characteristics

I(n)	16 A	U(n)	230 V
Modules	1	Contacts	1
Adjustment range	30 s-15 min	Code	101065
