

Self-extinguishing insulating tape Teco 19mm x 0.15mm x 25m BROWN

Internal Reference: NI16M

Adhesive PVC insulating fabric

For electrical insulation and mechanical protection in domestic and professional applications

Suitable for use in extreme conditions (very low or very high temperatures, high mechanical stress)

Good resistance to acids, bases and atmospheric conditions

Temperature range: 0 to +90°C

Self-extinguishing

Characteristics

Length	25 m	Width	19 mm
Color	brun	Thickness	0.15 mm
